

### Examiners and Candidates Advanced Test Check List

The following is a short checklist of matters to discuss with the candidate taken from this document. This checklist can be used to ensure that all points raised above have been discussed with the pilot prior to any flights:

- 1 Has the candidate read: - The MFNZ Members Manual  
Local site rules (if applicable) Safety Code for General Flying.
- 2 Discuss whether the model is suitable in 'these conditions'.
- 3 Any 'no fly zones' need to be identified.
- 4 Remind candidate to talk you through anything that the helper does  
for them as the test progresses.
- 5 Agree any Airspace requirements that need to be pre-determined by the  
Examiner and Candidate prior to the commencement of the test flights.
- 6 Discuss the various manoeuvres and any options that may be available so  
that there can be no misunderstanding during the test.
- 7 In particular, does the candidate understand how you expect to see the  
model positioned with regard to the wind throughout the test.
- 8 Clearly identify the landing area and agree with the candidate the required  
landing pattern that he will be flying and you will be looking for.
