

Examiners and Candidates Advanced Test Check List

The following is a short checklist of matters to discuss with the candidate taken from this document. This checklist can be used to ensure that all points raised above have been discussed with the pilot prior to any flights:

- 1 Has the candidate read: - The MFNZ members manual
Local site rules (if applicable) 'Safety Code for General
Flying'
- 2 Discuss whether the model is suitable in "these conditions"
- 3 Any "no fly zones" need to be identified
- 4 Remind candidate to talk you through anything that the
helper does for them as the test progresses
- 5 Agree any Airspace requirements that need to be pre-
determined by the Examiner and Candidate prior to the
commencement of the test flights
- 6 Discuss the various manoeuvres and any options that may be
available so that there can be no misunderstanding during the
test
- 7 In particular, does the candidate understand how you expect to
see the model positioned with regard to the wind throughout
the test.
- 8 Clearly identify the landing area and agree with the candidate the
required landing pattern that he will be flying and you will be
looking for.
